# INDEX TO VOLUME 47

The asterisk (*) preceding the page number indicates an original article in the Archives. Subject entries are made for all articles. Author entries are made for original articles and society transactions. Book Reviews, Obituaries and Society Transactions are indexed under these headings in their alphabetical order under the letters B, O and S, respectively.

**Abnormalities** and Deformities: See also Twins; and under names of organs and regions, as Brain; Cerebellum; etc.
  myatonia congenita (Oppenheim) accompanied by congenital intraspinal tumor, developmental retardation and malformation, 341

Abscess: See under names of organs and regions, as Brain, abscess; etc.

Acetylcholine: See Choline and Choline Derivatives

Acid fuchsin; susceptibility to convulsions in relation to age; influence of acid fuchsin on rats of various age groups, *30
  Nicotinic: See Nicotinic Acid
  phosphorus compounds of brain; adenosine triphosphate, 153
  pyruvic acid studies in Wernicke syndrome, *215

Acromegaly accompanying cutis verticis gyrata, 692

Adenosine Triphosphoric Acid: See under Acid

Adolescence, personality changes in, 685
  precocious puberty and tumors of hypothalamus, 690
  pubertas praecox due to ovarian tumors, 690

Adrenal Preparations, desoxycorticosterone acetate in dystrophy of infants, 695
  effect of adrenal cortex on carbohydrate metabolism, 1050

Adrenalectomy: See under Adrenals

Adrenalin: See Adrenal Preparations

Adrenals, effect of adrenal cortex on carbohydrate metabolism, 1050
  vitamin B complex and adrenalectomy, 1050

Age, 1937-1938 epidemic of acute anterior poliomyelitis in New South Wales with reference to change in age incidence, poliomyelitis during pregnancy and poliomyelitis following tonsillectomy, 332
  Old: See Old Age
  susceptibility to convulsions in relation to age; influence of acid fuchsin on rats of various age groups, *30

Akelaitis, A. J.: Encephalitis with intranuclear inclusion bodies; clinicopathologic study, *353
  Studies on corpus callosum; contribution to study of dyspraxia and apraxia following partial and complete section of corpus callosum, *971
  Studies on corpus callosum; laterality in behavior and bilateral motor organization in man before and after section of corpus callosum, *519

Akinesia: See Movements

Alcoholism: See also Korsakoff Syndrome
  adjuvant treatment of toxic states; preliminary report, 697
  chronic, at Cook County Hospital, 169
  effects of alcohol on electroencephalogram (brain waves), 1041
  Rorschach studies in acute experimental alcoholic intoxication, 155

Aldarsone, Therapy: See Syphilis

Alexander, L.: Correlation of vital observations with postmortem study of cerebral circulation, 337
  Electrical injuries of nervous system, 179

Allen, A.: Effect of emotional excitement on insulin content of blood; contribution to physiology of psychoses, *234, 499

Allen, E. B.: Psychiatric disorders in 40 men teachers, 514

Allergy: See Anaphylaxis and Allergy

Almansi, R.: Electricfit in treatment of mental disease, 510

Alpers, B. J.: Changes in brain after electrically induced convulsions in cats, *385

Alpha Tocopherol, Therapy: See Atrophy, muscular

Alzheimer's Disease: See Insanity, presenile

Amentia: See Feeblemindedness; Insanity; Mental Diseases; etc.

American Red Cross, call to qualified psychiatric social workers, 842

Amnestic Syndrome: See Korsakoff Syndrome

Amphetamine, effect of amphetamine (benzedrine) on fatigue of central nervous system, 843
  Therapy: See Parkinsonism

Amputation, histologic alterations in denervated nonregenerating limbs of urodele larvae, 1039
  morphologic effects of denervation and amputation of limbs in urodele larvae, 1040

Amyloidosis, amyloid neuritis, *132

Amyotonia: See Myatonia

Amyotrophy: See Sclerosis, amyotrophic lateral

Analgesia: See Anesthesia; Pain

Anaphylaxis and Allergy: See also Asthma; etc.
  recovery from meningococcemia and meningococcic endocarditis following anaphylactic shock, 324

Androgens: See also Hormones, sex
  effects of testosterone propionate in impotence, 692
  inhibition and stimulation of testes in rats treated with testosterone propionate, 691

Anemia, brain in sickle cell anemia, *752

Anesthesia, induction of metrazol convulsions with patient under nitrous oxide anesthesia, *223
  momentary death and choreoathetosis following nitrous oxide anesthesia with recovery, *245

Anesthetics: See Anesthesia

Aneurysm, intracranial, 848
  suprasellar; report of case, with recovery, *662

Angiospasm: See Brain, blood supply

Angrist, A.: Brain in sickle cell anemia, *752

Anomalies: See Abnormalities and Deformities; and under names of organs and regions, as Brain; Cerebellum; etc.

Anorexia: See Appetite

Anoxemia: See Oxygen, deficiency

Anoxia: See Oxygen, deficiency

Anxiety: See Neuroses and Psychoneuroses

Apoplexy: See Brain, hemorrhage
Apparatus, studies of sensation of vibration; vibration sensibility in face following retrogasserian neurectomy, *813
Appetite; anorexia nervosa, 683
psychodynamisms in anorexia nervosa and neurotic vomiting, 478
Apraxia, studies on corpus callosum; contribution to study of dyspraxia and apraxia following partial and complete section of corpus callosum, *971
Aqueduct of Sylvius: See Brain, pathology
Arieff, A. J.: Psychiatric inventory of 100 cases of indecent exposure, 495
Untoward effects of dilantin on patients with epilepsy, 865
Aring, C. D.: Fatal infectious polyneuritis in childhood; infectious neuronitis, acute polyneuritis with facial diplegia, Guillain-Barré syndrome and Landry's paralysis, *938
Intracranial blood flow in dementia paralytica, cerebral atrophy and schizophrenia, *793
Arnold, H.: Tumors of brain produced with benzpyrene, 346
Arnold-Chiari Deformity: See Brain, abnormalities
Arsenic and Arsenic Compounds, Therapy: See Syphilis
Arsphenamines, neoarsphenamine encephalitis with recovery, 170
Arteries: See Aneurysm; Blood pressure; Blood vessels; Embolism; Periarteritis; Thrombosis; Vasomotor System; etc.
Cerebral: See Brain, blood supply
Arteriography: See Brain, blood supply
Arthritis: See Spine
Asthma: See also Anaphylaxis and Allergy
bronchial, emotional factor in children, 478
Athetosis and choreoathetosis; clinicopathologic report, 1058
Atrophy: See also under names of organs and regions, as Brain, atrophy; Cerebellum; etc.
Muscular: See also Dystrophy, muscular
muscular; neural myatrophy and vitamin E, 694
Audition: See Hearing
Aujesky's Disease: See Pseudorabies
Autohemotherapy: See Serotherapy and Hemotherapy
Aviation and Aviators, effect of low and high oxygen tensions on mental functioning, 152
nature of pain in high flights, 154
Avitaminoses: See under Vitamins
Axons: See Neurons

**Babinski** Reflex: See under Reflex
Backache, low backache and sciatic pain associated with spondylolisthesis and protruded intervertebral disk, 165
Bacteremia, lumbar puncture as factor in pathogenesis of meningitis, 481
Bacteria: See also Meningococci; etc.
Calmette-Guérin: See under Tuberculosis
proteus group; otitic meningitis due to Bacillus proteus, 482
proteus group; thrombosis of lateral sinus and abscess of temporal lobe due to Bacillus proteus, 329
Baker, A. B.: Epidermoid, dermoid and teratomatous tumors of central nervous system, *890
Western variety of equine encephalitis in man; clinicopathologic study, *565
Balser, B. H.: Alternating tremor and its relation to cortical pathways, *962
Barré-Guillain Syndrome: See Nerves, roots
Barrera, S. E.: Variations in electroencephalogram associated with electric shock therapy of patients with mental disorders, *367
Bartemeier, L. H.: Psychiatric treatment, 494
Bay, A. P.: Review of symptomatology of Alzheimer's disease, 862
Bechterew's Disease: See Spine, arthritis
Behavior, effect of temperature on development of form and behavior in amphibian embryos, 1040
electroencephalographic studies on children presenting behavior disorders, 1076
pathologic study of monkey exhibiting behavior disorder, 186
schedules for civilian defense workers, 477
Bell's Palsy: See Paralysis, facial
Belladonna, Therapy: See Encephalitis; Parkinsonism
Bennett, A. E.: Artificial fever therapy for dementia paralytica with electroencephalographic studies, 167
Hemichorea (hemiballismus); association with pallidal lesion, involving afferent and efferent connections of subthalamic nucleus; curare therapy, *667
Benzedrine: See Amphetamine
Benzpyrene, tumors of brain produced with, 346
Bequests to New York University from Dr. Menas S. Gregory, 150
Berger Rhythm: See Brain, electroencephalography
Berglund, G.: Vascular pattern of lesions of multiple sclerosis, *1
Binswanger's Disease: See Brain, diseases
Bladder, neurogenic, therapy of, 1066
Blindness: See Vision
Blood: See also Leukocytes
biochemical disturbances in mental disorders; anti-insulin effect of blood in cases of schizophrenia, *38; correction, 1057
cholesterol; convulsive reactivity in hypercholesteremia, 1042
cholesterol; effect of hypophysectomy on hypercholesteremia (produced by thyroidectomy) of dogs, 1051
clinical significance of insulin inhibition by blood of schizophrenic patients, 501
Diseases: See Anemia
effect of emotional excitement on insulin content of blood; contribution to physiology of psychoses, *234, 499
formation; hypophysis and hemopoiesis, 1049
pressure, high; arterial hypertension and section of splanchnic nerves, 1052
proteins, in mental disease, 1042
Sugar: See also under Insulin
sugar; factors affecting changes produced in electroencephalogram by standardized hyperventilation, *606
sugar; induced hypoglycemia in management of opiate withdrawal, 854
Vessels: See also Periarteritis; Vasomotor System; etc.
vessels; vascular pattern of lesions of multiple sclerosis, *1
Body, comparison of body and endocrine gland (adrenal, thyroid and pituitary) weights of emotional and nonemotional rats, 1050
Bohrod, M. G.: Primary degeneration of corpus callosum (Marchiafava's disease); report of second American case, *465

Bones, osteogenic sarcoma of meningeal origin, 845
skeletal changes affecting nervous system produced in young dogs by diets deficient in vitamin A, 844

BOOK REVIEWS:
Anoxia: Its Effect on Body; E. J. Van Liere, 878
Autonomic Nervous System; J. C. White and R. H. Smithwick, 351
Epilepsy and Cerebral Localization: Study of Mechanism, Treatment and Prevention of Epileptic Seizures; W. Penfield and T. C. Erickson, 875
Foundations for Science of Personality; A. Angyal, 1085
Modern Treatment of Syphilis; J. E. Moore with collaboration of J. E. Kemp and others, 517
Science and Sanity: Introduction to Non-Aristotelian Systems and General Semantics; A. Korzybski, 877
Self-Analysis; K. Horney, 1086
Shock Treatment in Psychiatry: A Manual; L. Jessner and V. G. Ryan, 518
Surgical Diseases of Spinal Cord, Membranes and Nerve Roots: Symptoms, Diagnosis and Treatment; C. A. Elsberg with chapters by C. G. Dyke and A. Wolf, 194
Traumatic Neuroses of War; A. Kardiner, 352

Brain: See also Cerebellum; Corpus Callosum; Hypothalamus; Lenticular Nucleus; Medulla Oblongata; Meninges; Nervous System; Thalamus; etc.
abnormalities; Arnold-Chiari malformation; diagnosis, demonstration by intraspinal lipiodol and successful surgical treatment, 490
abnormalities; distant neuroanatomic complications of spina bifida (spinal dysraphism); hydrocephalus, Arnold-Chiari deformity, stenosis of aqueduct of Sylvius, etc.; pathogenesis and pathology, *195
abscess of uncommon origin; relation to osteomyelitis of skull (clinicopathologic study), 174
abscess; thrombosis of lateral sinus and abscess of temporal lobe due to Bacillus proteus, 329
alternating tremor and its relation to cortical pathways, *962
atrophy; encephalographic ratio for estimating ventricular enlargement and cerebral atrophy, *931
atrophy; intracranial blood flow in dementia paralytica, cerebral atrophy and schizophrenia, *793
atrophy, psychogenic manifestations in clinical picture due to, 162
avian thiamine deficiency; pathologic changes in brain and cranial nerves (especially vestibular) and their relation to clinical behavior, *97
Blood Supply: See also Aneurysm; etc.
blood supply; anomalies of circle of Willis in relation to cerebral softening, 845
blood supply; cerebral arteriography with diodrast, 50 per cent, 1056
blood supply; cerebral vascular lesions and tentorial pressure cone, 330
blood supply; correlation of vital observations with postmortem study of cerebral circulation, 337
blood supply; emergency surgery in cerebral angiospasm, 1055
blood supply; vascular pattern of lesions of multiple sclerosis, *1

Brain—Continued
blood supply; vascularization in brains of reptiles; cerebral capillary bed in Sphenodon punctatum, 1040
blood supply; vasospasm and focal cerebral ischemia; experimental study, *77
calcification; ophthalmologic aids in neurologic diagnosis, 1067
changes after electrically induced convulsions in cats, *385
Concussion: See Brain, injuries
Disease Registry, Wayne University College of Medicine, Detroit, 149
Diseases: See also Encephalitis; Insanity; Mental Diseases; etc.
diseases; lead encephalopathy in children and adults, 161
diseases; mannerisms as organic motility syndrome (paracortical disturbances), 1048
diseases; progressive degenerative encephalopathy; report of case occurring in infancy with antenatal onset in which condition simulated "swayback" of lambs, 345
diseases; progressive subcortical encephalopathy (Binswanger's disease), 338
diseases; syndrome of internal frontal hyperostosis, 855
diverticula of lateral ventricles extending into cerebellar fossa, *768
electroencephalograms of thiamine-deficient pigeons, *821
electroencephalographic and clinical studies following metrazol and electric convulsive therapy of affective disorders, *1009
electroencephalographic effects of acute increases of intracranial pressure, *449
electroencephalographic studies on children presenting behavior disorders, 1076
electroencephalographic studies on neurosyphilis, *718
electroencephalography; artificial fever therapy for dementia paralytica with electroencephalographic studies, 167, 854
electroencephalography; autonomic indications of excitatory and homeostatic effects on electroencephalogram, 864
electroencephalography; effect of choline-like substances on cerebral electrical discharges in epilepsy, 153
electroencephalography; effects of alcohol on electroencephalogram (brain waves), 1041
electroencephalography; factors affecting changes produced in electroencephalogram by standardized hyperventilation, *606
electroencephalography; influence of visual and auditory stimuli on electroencephalographic tracing of petit mal, 160
electroencephalography; variations in electroencephalogram associated with electric shock therapy of patients with mental disorders, *367
factor of hypoxia in shock therapies of schizophrenia, *800
glycolysis and phosphorylation in brain extracts, 680
Hemorrhage: See also under Encephalitis
hemorrhage; morphologic studies of blood vessels in glioma said to be of apoplectic origin, 847
in sickle cell anemia, *752
Inflammation: See Encephalitis
influence of growth and myelination on deposition and metabolism of lipids in, 680
Injuries: See also Head, injuries
injuries; traumatic shock in experimental cerebral concussion, 844

Brain—Continued
localization of function; central regulation of white blood cells, 153
mimetic smiledness as related to handedness; indicator of basic modes of human adaptation, 1060
oxidation of various sugars by brain tissue, 679
parapyramidal fasciculotomy in brain stem, *808
pathologic study of monkey exhibiting behavior disorder, 186
pathology; anomalies of circle of Willis in relation to cerebral softening, 845
pathology; distant neuroanatomic complications of spina bifida (spinal dysraphism); hydrocephalus, Arnold-Chiari deformity, stenosis of aqueduct of Sylvius, etc.; pathogenesis and pathology, *195
peduncular brain stem syndrome, 162
phosphorus compounds of; adenosine triphosphate, 153
regulation of cerebral carbon dioxide, *879
response of human brain tissue to local refrigeration, 189
roentgenography; encephalographic ratio for estimating ventricular enlargement and cerebral atrophy, *931
roentgenography; pneumoencephalography in epilepsy, 856
Sclerosis: See Sclerosis
section of cephalic third of vagus-spinal accessory complex; clinical and histologic results, *141
self-inflicted bullet wound of frontal lobes in depression with recovery, 681
Softening: See Brain, pathology
studies on corpus callosum: laterality in behavior and bilateral motor organization in man before and after section of corpus callosum, *519
surgery; reduction of intracranial pressure after operation on brain; pathophysiology of spinal fluid system, 686
treatment of penetrating wounds of, 336
tumors and personality disorders, 159
tumors, clinical value of hallucinations in localizing, 160
tumors, frontal lobectomy for, 160
tumors; infundibuloma, 346
tumors, metastatic, 687
tumors; morphologic studies of blood vessels in glioma said to be of apoplectic origin, 847
tumors; otitic thrombosis of cerebral sinuses and veins simulating multiple tumors, *428
tumors produced with benzpyrene, 346
twins, brain waves and epilepsy, 702
unusual observations in case of carbon monoxide poisoning, 339
vascular and interstitial cell changes in thiamine-deficient animals, *626
Brazier, M. A. B.: Effect of pregnancy on course of myasthenia gravis, 1082
Bromide and Bromine, psychoses from bromides, 480
Brown, M.: Studies of sensation of vibration: vibration sensibility in face following retrogasserian neurectomy, *813
Brown, M. H.: Intraspinal meningiomas; clinical and pathologic study, *271
Bucy, P. C.: Surgical treatment of tremor: case presentation with motion pictures, 863
Bueding, E.: Pyruvic acid studies in Wernicke syndrome, *215
Bulgarian Treatment: See Encephalitis; Parkinsonism
**Calcification:** See under Brain
Campbell, C. M.: Selective Service System; psychiatric notes on selectees and their families, 1079
Campbell, E.: Myasthenia gravis treated by excision of thymic tumor: report of 2 cases, *645
Campbell, J. B.: Sign of Babinski in Macaca mulatta, 702
Cancer: See Sarcoma; Tumors; etc.; and under names of organs and regions
Capillaries: See Blood, vessels; Vasomotor System
Carbaminoylcholine: See Choline and Choline Derivatives
Carbohydrates: See also Blood, sugar; Dextrose; Sugars; etc.
effect of adrenal cortex on carbohydrate metabolism, 1050
metabolism; biochemical disturbances in mental disorders; anti-insulin effect of blood in cases of schizophrenia, *38; correction, 1038
Carbon Dioxide: See also Metabolism; Respiration
regulation of cerebral carbon dioxide, *879
Carbon Disulfide, neuropathologic changes in experimental poisoning in cats, 340
Carbon Monoxide poisoning, unusual observations in case of, 339
Cardiazol: See Dementia Praecox; Metrazol
Cardiovascular System: See Blood, vessels; Heart; Vasomotor System; etc.
Casamajor, L.: Menas Sarkas Gregory, 350
Cash, P. T.: Artificial fever therapy for dementia paralytica with electroencephalographic studies, 167
Hemichorea (hemiballismus); association with pallidal lesion, involving afferent and efferent connections of subthalamic nucleus; curare therapy, *667
Castration: See Gonads, excision
Cataphrenia: See under Mental Diseases
Catatonia: See Dementia Praecox; Mental Diseases
Cauda Equina: See Spinal Cord
Causalgia: See Neuralgia
Cells: See also Neuroglia; Neurons; etc.
encephalitis with intranuclear inclusion bodies; clinicopathologic study, *353
Cerebellum, abnormalities; congenital anomaly of vermis, 845
avian thiamine deficiency; pathologic changes in brain and cranial nerves (especially vestibular) and their relation to clinical behavior, *97
diverticula of lateral ventricles extending into cerebellar fossa, *768
vertical nystagmus associated with cerebellar lesions, 192
Cerebrospinal Fluid: See also Spinal Puncture
and skin temperature findings in sciatica, 486
fatal infectious polyneuritis in childhood; infectious neuronitis, acute polyneuritis with facial diplegia, Guillain-Barré syndrome and Landry's paralysis, *938
in multiple sclerosis, 487
reduction of intracranial pressure after operation on brain; pathophysiology of spinal fluid system, 686
significance of examination for diagnosis of multiple sclerosis, 485
Cerebrum: See Brain

Chapin, J. M.: Chronic alcoholism at Cook County Hospital, 169
Charcot-Marie-Tooth Disease: See Sclerosis, amyotrophic lateral
Chemotherapy: See under Syphilis
Childe, A. E.: Diverticula of lateral ventricles extending into cerebellar fossa, *768
Children, child analysis, 682
electroencephalographic studies on children presenting behavior disorders, 1076
important factor in eating disturbances of childhood, 1043
Rorschach reactions in early childhood, 479
Choked Disk: See Neuritis, optic
Cholesterol in Blood: See Blood, cholesterol
Choline and Choline Derivatives, distribution of acetylcholine in peripheral and central nervous system, 844
effect of choline-like substances on cerebral electrical discharges in epilepsy, 153
Chordoma of basiocciput and basisphenoid, 850
Chorea, hemichorea (hemiballismus); association with pallidal lesion, involving afferent and efferent connections of subthalamic nucleus; curare therapy, *667
Choreoathetosis: See Paramyoclonus multiplex
Civilian defense workers, schedules for, 477
Clinics, Langley Porter Clinic, 677
Cochlea: See Ear, internal
Cold: See Refrigeration
Colleges: See Universities
Coma: See also Dementia Praecox; Insulin; etc.
prolonged, in insulin therapy of psychoses, 692
Communicable Diseases: See Meningitis; Syphilis; etc.
Concussion: See Brain, injuries
Congress: See Societies
Constitution, personality and habitus in organic disease, 682
primary degeneration of corpus callosum (Marchiafava's disease); report of second American case, *465
Convulsions: See also Epilepsy
changes in brain after electrically induced convulsions in cats, *385
convulsive reactivity in hypercholesteremia, 1042
susceptibility in relation to age; influence of acid fuchsin on rats of various age groups, *30
Corpus Callosum, primary degeneration (Marchiafava's disease); report of second American case, *465
studies on; contribution to study of dyspraxia and apraxia following partial and complete section of corpus callosum, *971
studies on; laterality in behavior and bilateral motor organization in man before and after section of corpus callosum, *519
Corpus Luysi: See Hypothalamus
Restiforme: See under Medulla Oblongata
Corticospinal Tract: See Pyramidal Tract
Corwin, W.: Correlations between patterns of breathing and personality manifestations, *265
Cranial Venous Sinuses: See Lateral Sinus
Cranium: See also Frontal Bone; Head; Occipital Bone; Temporal Bone
brain abscess of uncommon origin; relation to osteomyelitis of skull (clinicopathologic study), 174
Cranium—Continued
chordoma of basiocciput and basisphenoid, 850
Foster Kennedy syndrome associated with nonneoplastic intracranial conditions; report of case, 873
Injuries: See Brain, injuries; Head, injuries
intracranial blood flow in dementia paralytica, cerebral atrophy and schizophrenia, *793
intracranial pneumocele; report of case, 186
pressure in; cerebral vascular lesions and tentorial pressure cone, 330
pressure in; electroencephalographic effects of acute increases of intracranial pressure, *449
Creatine and Creatinine, creatine-creatinine metabolism and hormones, 1049
Crime and Criminals, murder in early stages of schizophrenia, 323
Crocodile Tears: See Tears
Curare Therapy: See Chorea
Cutis Verticis Gyrata: See under Scalp
Cysts: See under names of organs and regions, as Spinal Cord; etc.
Dermoid: See Tumors
**Danlos-Ehlers** Syndrome: See Joints; Skin, abnormalities; Skin, tumors
Danziger, L.: Estrogen therapy of agitated depressions associated with menopause, *305
Darrow, C. W.: Autonomic indications of excitatory and homeostatic effects on electroencephalogram, 864
Davis, H.: Factors affecting changes produced in electroencephalogram by standardized hyperventilation, *606
Davison, C.: Brain abscess of uncommon origin; relation to osteomyelitis of skull (clinicopathologic study), 174
Otitic thrombosis of cerebral sinuses and veins simulating multiple brain tumors, *428
Progressive subcortical encephalopathy (Binswanger's disease), 338
Deaf Mutism, spasmodic quadriplegia with familial idiocy and deaf mutism, 490
Deafness: See Hearing; Otitis Media; etc.
Death, momentary, and choreoathetosis following nitrous oxide anesthesia with recovery, *245
Dehydration, ultrastructure of neural plate and tube of early chick embryo, with notes on effects of dehydration, 1041
Delusions: See under Dementia Praecox; Insanity; etc.
Dementia: See Dementia Paralytica; Dementia Praecox; Insanity; Stupor; etc.
Presenile: See Insanity, presenile
Dementia Paralytica, artificial fever therapy with electroencephalographic studies, 167, 854
intracranial blood flow in dementia paralytica, cerebral atrophy and schizophrenia, *793
Dementia Praecox, autonomic and respiratory responses of schizophrenic and normal subjects to changes of intrapulmonary atmosphere, 684
biochemical disturbances in mental disorders; anti-insulin effect of blood in cases of schizophrenia, *38; correction, 1057
clinical significance of insulin inhibition by blood of schizophrenic patients, 501
continuous ambulatory insulin shock technic in treatment of schizophrenia; report of 2 cases, *53

Dementia Praecox—Continued
correlations between patterns of breathing and personality manifestations, *265
critical analysis of insulin therapy at Rochester State Hospital, 1042
electric shock therapy in psychoses; convulsive and subconvulsive methods, 854
factor of hypoxia in shock therapies of schizophrenia, *800
induction of metrazol convulsions with patient under nitrous oxide anesthesia, *223
intracranial blood flow in dementia paralytica, cerebral atrophy and schizophrenia, *793
murder in early stages of schizophrenia, 323
prognosis in schizophrenia; study of 271 cases, 681
report on family exhibiting hereditary mirror movements and schizophrenia, 1074
schizoid personality and schizophrenia, 1043
schizophrenia in 5 year old child; report of case, 696
Denny-Brown, D. D.: War neurology, 348
Depersonalization: See Personality
Depression: See also Insanity; Mental Diseases; Neuroses and Psychoneuroses
estrogen therapy of agitated depressions associated with menopause, *305
self-inflicted bullet wound of frontal lobes in depression with recovery, 681
Dermoid Tumor: See Tumors, dermoid
Desoxycorticosterone Acetate: See Adrenal Preparations
Dextrose: See also Blood, sugar; Carbohydrates; Sugars; etc.
glycolysis and phosphorylation in brain extracts, 680
Diabetes Insipidus, pitressin-inhibiting substance in serum of patient with transient diabetes insipidus, 188
Diabetes Mellitus: See also Blood sugar
induction and course of permanent diabetes produced by anterior pituitary extract, 691
Diethelm, O.: Leukocytosis during various emotional states, *779
Dilantin Sodium: See Epilepsy; Sodium diphenylhydantoinate
Diodrast: See Brain, blood supply
Diphenylhydantoinate: See Epilepsy; Sodium diphenylhydantoinate
Diplegia: See Paralysis
Dipsomania: See Alcoholism
Disease: See also Constitution; Medicine; etc.
personality and habitus in organic disease, 682
personality in cases of psychosomatic disorders, 699
Disk, Choked: See Neuritis, optic
Intervertebral: See under Spine
Diverticula: See under Brain
Dl Alpha Tocopherol: See Vitamins, E
Doryl: See Choline and Choline Derivatives
Dow, R. S.: Vascular pattern of lesions of multiple sclerosis, *1
Drawings, graphic Rorschach test I, *438
Drugs, Addiction: See also under names of drugs
addiction; induced hypoglycemia in management of opiate withdrawal, 854
experimental pharmacology of postencephalitic Parkinson's disease, *399
Ductless Glands: See Endocrine Glands
Dysarthria: See under Speech
Dyskinesia: See Movements
Dyspraxia: See Movements
Dyssynergia: See Movements
Dystrophy, Muscular: See also Atrophy, muscular
muscular; heredity of pseudohypertrophic muscular dystrophy, 488
muscular shortening and dystrophy; heredofamilial disease, 706
muscular; vitamin E in treatment of muscle disorders of infancy and childhood, 1053

**Ear:** See also Hearing
Diseases: See Otitis Media
Internal: See also Nerves; Nystagmus; Vertigo, aural
internal; changes in vestibular sensitivity in Ménière's syndrome and their significance, 484
Echlin, F. A.: Vasospasm and focal cerebral ischemia; experimental study, *77
Edema: See under names of organs and regions
Education, course of study in Rorschach method of personality study and clinical diagnosis, 677
Ehlers-Danlos Syndrome: See Joints; Skin, abnormalities; Skin, tumors
Eisenstein, V. W.: Brain abscess of uncommon origin; relation to osteomyelitis of skull (clinicopathologic study), 174
Electrifit in treatment of mental disease, 510
Electricity, electrical injuries of nervous system, 179
pathologic changes in central nervous system in experimental electric shock, *918
Electrocution: See under Electricity
Electroencephalogram: See Brain, electroencephalography
Elsberg, C. A.: Olfactory-parotid reflex; study of 150 patients with disorders of central nervous system; preliminary report, *707
Emblem, national competition for emblem of American Psychiatric Association, 678
Embolism: See also Thrombosis
cerebral fat embolism; clinicopathologic study of 2 cases, *57
Emotions: See also Rage; etc.
comparison of body and endocrine gland (adrenal, thyroid and pituitary) weights of emotional and nonemotional rats, 1050
effect of emotional excitement on insulin content of blood; contribution to physiology of psychoses, *234, 499
emotional factor in bronchial asthma in children, 478
influence on esophageal function, 684
leukocytosis during various emotional states, *779
Encephalitis: See also Encephalomyelitis; Meningoencephalitis
chronic; use of "rabellon" in treatment, 1054
experimental pharmacology of postencephalitic Parkinson's disease, *399
hemorrhagic; pyruvic acid studies in Wernicke syndrome, *215
infectious mononucleosis, with reference to cerebral complication, 850
modified Bulgarian belladonna treatment of parkinsonism, 1054
mumps encephalitis, 1047
neoarsphenamine encephalitis with recovery, 170
ophthalmologic aids in neurologic diagnosis, 1067

Encephalitis—Continued
parapyramidal fasciculotomy in brain stem, *808
pathologic features of murine and cavian poliomyelitis, 346
periaxialis diffusa; acute hemorrhagic leukoencephalitis, 846
progressive degenerative encephalopathy; report of case occurring in infancy with antenatal onset in which condition simulated "swayback" of lambs, 345
western variety of equine encephalitis in man; clinicopathologic study, *565
with intranuclear inclusion bodies; clinicopathologic study, *353

comparative data on tissue culture of acoustic neurilemmoma and meningioma, 342
histologic alterations in denervated nonregenerating limbs of urodele larvae, 1039
irritative lesions of, 166
loci of olfactory end-organs in blowfly, Cynomyia cadaverina Desvoidy, 1039
morphologic effects of denervation and amputation of limbs in urodele larvae, 1040

Nerves—Continued
motor; behavior of motor units in healthy and paretic muscle in man, 681
neural differentiation without organizer, 1041
Optic: See Neuritis, optic
peripheral; distribution of acetylcholine in peripheral and central nervous system, 844
roots; fatal infectious polyneuritis in childhood; infectious neuronitis, acute polyneuritis with facial diplegia, Guillain-Barré syndrome and Landry's paralysis, *938
roots; neurologic symptoms and clinical findings in patients with cervical degenerative arthritis, 491
Sciatic: See Sciatica
section of cephalic third of vagus-spinal accessory complex; clinical and histologic results, *141
Spinal: See Nerves, roots
splanchnic, arterial hypertension and section of, 1052
studies of sensation of vibration; vibration sensibility in face following retrogasserian neurectomy, *813
Trigeminal: See Neuralgia, trigeminal
Tumors: See Nervous System
types of softening of central nerve tissue, 347
ultrastructure of neural plate and tube of early chick embryo, with notes on effects of dehydration, 1041

Nervous System: See also Brain; Cerebellum; Nerves; Neurons; Reflex; Spinal Cord; etc.
and vitamin A deficiency, 843
antagonism between thyroid and posterior pituitary and its relation to autonomic nervous system, 1052
autonomic and respiratory responses of schizophrenic and normal subjects to changes of intrapulmonary atmosphere, 684
autonomic indications of excitatory and homeostatic effects on electroencephalogram, 864
brain in sickle cell anemia, *752
Diseases: See also Epilepsy; Mental Diseases; Neuritis; Neuroses and Psychoneuroses; etc.
diseases; neurologic symptoms associated with malignant tumors of rhinopharynx, 1049
diseases; neurologic symptoms of uveoparotid fever, 686
diseases; neuropathologic changes in experimental carbon disulfide poisoning in cats, 340
diseases; progressive degenerative encephalopathy; report of case occurring in infancy with antenatal onset in which condition simulated "swayback" of lambs, 345
distribution of acetylcholine in peripheral and central nervous system, 844
effect of amphetamine (benzedrine) on fatigue of central nervous system, 843
electrical injuries of, 179
epidermoid, dermoid and teratomatous tumors of central nervous system, *890
intrathoracic neurogenic tumors, 856
myelolytic substance present in disseminated sclerosis; further investigations, 344
neurologic complications of serum therapy, 165
neurometabolic deficiency in old age (senile encephalomyelosis), 331
occurrence of aseptic complications in central nervous system in scarlet fever, 162
olfactory-parotid reflex; study of 150 patients with disorders of central nervous system; preliminary report, *707
ophthalmologic aids in neurologic diagnosis, 1067

Nervous System—Continued
pathologic changes in central nervous system in experimental electric shock, *918
pathologic features of murine and cavian poliomyelitis, 346
periarteritis nodosa; clinicopathologic report, with reference to central nervous system, *828
skeletal changes affecting nervous system produced in young dogs by diets deficient in vitamin A, 844
Surgery: See Brain, surgery; Neuralgia, trigeminal; etc.
Syphilis: See Syphilis

Nervousness: See Neuroses and Psychoneuroses

Neuralgia, glossopharyngeal, 483
reflex trigeminal neuralgia associated with heart disease, 166
trigeminal, tractotomy for relief of, *544

Neurilemmoma, comparative data on tissue culture of acoustic neurilemmoma and meningioma, 342

Neurinoma, roentgen diagnosis of neurinoma of thorax, 1056

Neuritis, acute retrobulbar, as manifestation of acute localized tissue anoxia, 164
amyloid, *132
Lumbosacral: See Sciatica
Multiple: See also Korsakoff Syndrome; Nerves, roots; etc.
multiple; fatal infectious polyneuritis in childhood; infectious neuronitis, acute polyneuritis with facial diplegia, Guillain-Barré syndrome and Landry's paralysis, *938
optic; Foster Kennedy syndrome associated with non-neoplastic intracranial conditions; report of case, 873

Neuroglia, vascular and interstitial cell changes in thiamine-deficient animals, *626

Neurology: See also Nerves; Nervous System; Neuroses and Psychoneuroses; etc.
some problems of wartime neurology, *839
war neurology, 348

Neuronitis: See Neuritis, multiple

Neurons, avian thiamine deficiency; pathologic changes in brain and cranial nerves (especially vestibular) and their relation to clinical behavior, *97
human pyramidal tract; postnatal changes in axons of pyramids, *422
pathologic alterations at human synapse, 340
vascular and interstitial cell changes in thiamine-deficient animals, *626

Neuroses and Psychoneuroses: See also Mental Diseases; Nervous System, diseases; etc.
anorexia nervosa, 683
disorders of mental functioning produced by varying oxygen tension of atmosphere, 684
effect of emotional excitement on insulin content of blood; contribution to physiology of psychoses, *234, 499
predisposition to anxiety, 158
psychodynamisms in anorexia nervosa and neurotic vomiting, 478
repetitive core of neurosis, 155
total gastrospasm, 1043

Neurosurgery: See Brain, surgery; etc.

Neurosyphilis: See Syphilis

Neustaedter, M.: Choreoathetosis and athetosis; clinicopathologic report, 1058

Newman, E.: Neoarsphenamine encephalitis with recovery, 170

Nicotinic Acid, effect in stupor, lethargy and various other psychiatric disorders, 1052
Nims, L. F.: Electroencephalographic effects of acute increases of intracranial pressure, *449
Regulation of cerebral carbon dioxide, *879
Nitrous Oxide: See Anesthesia
Noran, H. H.: Western variety of equine encephalitis in man; clinicopathologic study, *565
Noyes, A. P.: Unity and continuity of personality, 698
Nucleus Dentatus: See under Cerebellum
Lateralis Medullae: See Medulla Oblongata
Pulposus: See Spine, intervertebral disks
Nystagmus: See also Cerebellum; Ear, internal
vertical, associated with cerebellar lesions, 192

**Obesity** in childhood; family frame of obese children, 1043
syndrome of internal frontal hyperostosis, 855
OBITUARIES:
Gregory, Menas Sarkas, 350
Obsessions: See Neuroses and Psychoneuroses
Occipital Bone, chordoma of basiocciput and basiphenoid, 850
Old Age, neurometabolic deficiency (senile encephalomyelosis), 331
O'Leary, J. L.: Section of spinothalamic tract at level of inferior olive, *293
Olfactometry: See under Smell
Olfactory Bulb: See under Nerves
Oligophrenia: See Feeblemindedness; Idiocy
Olivary Body: See Medulla Oblongata
Olivecrona, H.: Tractotomy for relief of trigeminal neuralgia, *544
Ophthalmoplegia: See Eyes, paralysis
Opisthotonos, avian thiamine deficiency; pathologic changes in brain and cranial nerves (especially vestibular) and their relation to clinical behavior, *97
Oppenheim's Disease: See Myatonia congenita
Optic Disk, Choked: See Neuritis, optic
Optic Thalamus: See Thalamus
Osteitis deformans; compression of spinal cord by sarcomatous degeneration in course of osteitis deformans (Paget's disease) of vertebrae; report of case, 869
Osteomyelitis, brain abscess of uncommon origin; relation to osteomyelitis of skull (clinicopathologic study), 174
of frontal bone, 493
Otitis Media: See also Mastoiditis
otitic meningitis due to Bacillus proteus, 482
otitic thrombosis of cerebral sinuses and veins simulating multiple brain tumors, *428
pneumococcic meningitis, 481
Ovary, tumors, pubertas praecox due to, 690
Oxygen: See also Respiration
deficiency; acute retrobulbar neuritis as manifestation of acute localized tissue anoxia, 164
disorders of mental functioning produced by varying oxygen tension of atmosphere, 684
effect of low and high oxygen tensions on mental functioning, 152
factor of hypoxia in shock therapies of schizophrenia, *800

**Pacella**, B. L.: Variations in electroencephalogram associated with electric shock therapy of patients with mental disorders, *367
Paget's Disease of Bones: See Osteitis deformans
Pain, irritative lesions of nerves, 166
nature in high flights, 154
section of cephalic third of vagus-spinal accessory complex; clinical and histologic results, *141
section of spinothalamic tract at level of inferior olive, *293
Palsy: See Paralysis
Papez, J. W.: Hemichorea (hemiballismus); association with pallidal lesion, involving afferent and efferent connections of subthalamic nucleus; curare therapy, *667
Papilledema: See Neuritis, optic
Papillitis: See Neuritis, optic
Paralysis: See also Extremities, paralysis; Eyes, paralysis; Hemiplegia; Larynx, paralysis; Poliomyelitis
acute ascending; fatal infectious polyneuritis in childhood; infectious neuronitis, acute polyneuritis with facial diplegia, Guillain-Barré syndrome and Landry's paralysis, *938
agitans; alternating tremor and its relation to cortical pathways, *962
Bell's: See Paralysis, facial
facial; Bell's palsy and herpes zoster, 166
facial; "crocodile tears" treated by injection into sphenopalatine ganglion, *314
facial; fatal infectious polyneuritis in childhood; infectious neuronitis, acute polyneuritis with facial diplegia, Guillain-Barré syndrome and Landry's paralysis, *938
General: See Dementia Paralytica
Infantile: See Poliomyelitis
Laryngeal: See Larynx, paralysis
oculomotor; ophthalmologic aids in neurologic diagnosis, 1067
Periodic: See Extremities, paralysis
recent experiences with operation on facial nerve, 164
Paramyoclonus multiplex; choreoathetosis and athetosis; clinicopathologic report, 1058
multiplex; momentary death and choreoathetosis following nitrous oxide anesthesia with recovery, *245
Paraplegia: See Extremities, paralysis
Paresis: See Dementia Paralytica
Parietal Lobe: See Brain
Parker, S.: Momentary death and choreoathetosis following nitrous oxide anesthesia with recovery, *245
Parkinsonism: See also Encephalitis; Paralysis, agitans
experimental pharmacology of postencephalitic Parkinson's disease, *399
Parotid Gland, olfactory-parotid reflex; study of 150 patients with disorders of central nervous system; preliminary report, *707
Parotitis: See also Uveoparotid Fever
encephalomeningitis in mumps, 847
mumps encephalitis, 1047
Pearson, G. H. J.: Schizophrenia in 5 year old child; report of case, 696
Penfield, W.: Clinical notes from trip to Great Britain, *1030
Some problems of wartime neurology, *839

Periarteritis nodosa; clinicopathologic report, with reference to central nervous system, *828

Personality and habitus in organic disease, 682
changes in adolescence, 685
coconscious mentation, 157
correlations between patterns of breathing and personality manifestations, *265
course of study in Rorschach method of personality study and clinical diagnosis, 677
disorders with brain tumors, 159
factors in thyrotoxicosis, 505
in cases of psychosomatic disorders, 699
peculiar personalities; disorders of mood; psychopathic personality, 480
Rorschach studies in acute experimental alcoholic intoxication, 155
so-called epileptic personality as investigated by Kent-Rosanoff test, 478
unity and continuity of, 698

Petrous Bone: See Temporal Bone

Peyton, W. T.: Epidermoid, dermoid and teratomatous tumors of central nervous system, *890
Mixed tumors of spinal canal, *737

Phobias: See Neuroses and Psychoneuroses

Phosphorus and Phosphorus Compounds, glycolysis and phosphorylation in brain extracts, 680

Physostigmine, prostigmine treatment of myasthenia gravis with comment on theory of action of physostigmine and prostigmine, 488
Therapy: See Myasthenia Gravis

Pia Mater: See also Meninges
vasospasm and focal cerebral ischemia; experimental study, *77

Pick's Disease: See Brain, atrophy

Pineal Gland, syndrome of destruction of, 151

Pitressin: See Pituitary Preparations

Pituitary Body: See also Hypothalamus
antagonism between thyroid and posterior pituitary and its relation to autonomic nervous system, 1052
effect of hypophysectomy on hypercholesteremia (produced by thyroidectomy) of dogs, 1051
hypophysis and hemopoiesis, 1049

Pituitary Preparations, creatine-creatinine metabolism and hormones, 1049
induction and course of permanent diabetes produced by anterior pituitary extract, 691
pitressin-inhibiting substance in serum of patient with transient diabetes insipidus, 188

Plumbism: See under Lead

Pneumocele: See under Cranium

Pneumococci: See under Meningitis

Pneumography: See Brain, roentgenography

Pneumoperitoneum supplementing phrenic paralysis, 852

Poisons and Poisoning: See under names of various substances, as Bromide and Bromine; Carbon Disulfide; Carbon Monoxide; Lead; etc.

Polatin, P.: Continuous ambulatory insulin shock technic in treatment of schizophrenia; report of 2 cases, *53

Polioencephalitis: See Encephalitis

Polioencephalomyelitis: See Encephalomyelitis

Poliomyelitis: See also Encephalomyelitis
acute anterior, and vitamin B deficiency, 853
acute anterior, obstetric experiences of women paralyzed by, 163
certain epidemiologic aspects of, 866
character of poliomyelitis of 1940-1941, 866
fate of patients of 1937 in Copenhagen, 333
natural history of human poliomyelitis; distribution of virus in nervous and nonnervous tissues, 332
1937-1938 epidemic of acute anterior poliomyelitis in New South Wales with reference to change in age incidence, poliomyelitis during pregnancy and poliomyelitis following tonsillectomy, 332
pathologic features of murine and cavian poliomyelitis, 346

Pollakiuria: See Urination

Polyneuritis: See Neuritis, multiple

Polyuria: See Diabetes Insipidus

Prados, M.: Avian thiamine deficiency; pathologic changes in brain and cranial nerves (especially vestibular) and their relation to clinical behavior, *97
Vascular and interstitial cell changes in thiamine-deficient animals, *626

Pregnancy, effect on course of myasthenia gravis, 1082
1937-1938 epidemic of acute anterior poliomyelitis in New South Wales with reference to change in age incidence, poliomyelitis during pregnancy and poliomyelitis following tonsillectomy, 332
obstetric experiences of women paralyzed by acute anterior poliomyelitis, 163

Prostigmine, Therapy: See Myasthenia Gravis

Proteins in Blood: See Blood, proteins

Psammoma, psammomatous dural endothelioma (meningioma) with pulmonary metastasis, 845

Pseudorabies, Aujesky's disease in Turkey in animals and in man, 689

Psychiatry: See also Crime and Criminals; Insanity; Mental Diseases; Psychoanalysis; Psychotherapy; etc.
call to qualified psychiatric social workers by American Red Cross, 842
psychiatric internships in Bellevue Hospital, 149

acute anterior poliomyelitis and vitamin B deficiency, 853
avian thiamine deficiency; pathologic changes in brain and cranial nerves (especially vestibular) and their relation to clinical behavior, *97
electroencephalograms of thiamine-deficient pigeons, *821
vascular and interstitial cell changes in thiamine-deficient animals, *626

Thompson, J. W.: Correlations between patterns of breathing and personality manifestations, *265

Thorax: See also Heart; Lungs; etc.
ganglioneuroma of left thoracic cavity, 342
intrathoracic neurogenic tumors, 856
roentgen diagnosis of neurinoma of, 1056

Thrombosis: See also Embolism
of lateral sinus and abscess of temporal lobe due to Bacillus proteus, 329
otitic, of cerebral sinuses and veins simulating multiple brain tumors, *428

Thymus, changes associated with myasthenia gravis, 489
involvement in myasthenia gravis pseudoparalytica, 488
myasthenia gravis treated by excision of thymic tumor; report of 2 cases, *645

Thyroid, antagonism between thyroid and posterior pituitary and its relation to autonomic nervous system, 1052

Thyroid—Continued
effect of hypophysectomy on hypercholesteremia (produced by thyroidectomy) of dogs, 1051
hyperthyroidism; personality factors in thyrotoxicosis, 505
Thyrotoxicosis: See Thyroid, hyperthyroidism
Tic Douloureux: See Neuralgia, trigeminal
Tocopherol: See Vitamins, E
Tonsillectomy, 1937-1938 epidemic of acute anterior poliomyelitis in New South Wales with reference to change in age incidence, poliomyelitis during pregnancy and poliomyelitis following tonsillectomy, 332
Touch, studies of sensation of vibration; vibration sensibility in face following retrogasserian neurectomy, *813
Tractotomy: See Neuralgia
Trauma: See also Brain, injuries: Head, injuries; Hypothalamus; Parkinsonism; Shock; etc.
cerebral fat embolism; clinicopathologic study of 2 cases, *57
Tremor: See also Paralysis agitans; Parkinsonism
alternating, and its relation to cortical pathways, *962
surgical treatment; presentation of case, with motion pictures, 863
Tuber Cinereum: See Hypothalamus
Tuberculosis: See also under names of various organs, regions and diseases
pulmonary; pneumoperitoneum supplementing phrenic paralysis, 852
Tuberculum Sellae: See Hypothalamus
Tumors: See also Chordoma; Endothelioma; Ganglioneuroma; Glioma; Hemangioma; Meningioma; Neurinoma; Psammoma; Sarcoma; etc.; and under names of organs and regions, i. e., Brain; Cranium; Hypothalamus; Meninges; Nasopharynx; Ovary; Spinal Cord; Spine; Thorax; etc.
epidermoid, dermoid and teratomatous tumors of central nervous system, *890
metastatic, of brain, 687
mixed, of spinal canal, *737
Turner, O.: Vascular malformations and vascular tumors involving spinal cord; pathologic study of 46 cases, 348
Twins, brain waves and epilepsy, 702

**Unconscious:** See Psychonanalysis
Universities, bequests to New York University from Dr. Menas S. Gregory, 150
Brain Disease Registry, Wayne University College of Medicine, Detroit, 149
Urination, pollakiuria nervosa, 322
Urse, V. G.: Biochemical disturbances in mental disorders; anti-insulin effect of blood in cases of schizophrenia, *38; correction, 1057
Uveoparotid Fever, neurologic symptoms of, 686

**Vaccinotherapy:** See Syphilis
Van Wagenen, W. P.: Studies on corpus callosum; contribution to study of dyspraxia and apraxia following partial and complete section of corpus callosum, *971
Vasomotor System: See also Blood, vessels; Nervous System; Veins; etc.
vasospasm and focal cerebral ischemia; experimental study, *77
Veins: See also Blood vessels; Embolism; Thrombosis; Vasomotor System; etc.
Pressure in: See Blood pressure
vascular pattern of lesions of multiple sclerosis, *1
Ventriculography: See Brain, roentgenography
Vertebrae: See Spine
Vertigo, aural; changes in vestibular sensitivity in Ménière's syndrome and their significance, 484
aural; evaluation of Ménière syndrome, 483
Vestibular Apparatus: See Ear
Nuclei: See Medulla Oblongata
Veterans: See Soldiers and Veterans
Vibration, studies of sensation of vibration; vibration sensibility in face following retrogasserian neurectomy, *813
Viets, H. R.: Effect of pregnancy on course of myasthenia gravis, 1082
Present status of myasthenia gravis, 859
Vision, influence of visual and auditory stimuli on electroencephalographic tracing of petit mal, 160
suprasellar aneurysm; report of case, with recovery, *662
tests; effect of amphetamine (benzedrine) on fatigue of central nervous system, 843
Vitamins: See also Nicotinic Acid; Thiamine
A deficiency and nervous system, 843
A, skeletal changes affecting nervous system produced in young dogs by diets deficient in, 844
B: See also Nicotinic Acid; Thiamine
B complex and adrenalectomy, 1050
B; primary degeneration of corpus callosum (Marchiafava's disease); report of second American case, *465
E: See also Reproduction
E and neural myatrophy, 694
E in treatment of muscle disorders of infancy and childhood, 1053
mental changes associated with avitaminosis, 324
pyruvic acid studies in Wernicke syndrome, *215
Vocal Cords, Paralysis: See Larynx, paralysis
Vomiting, psychodynamisms in anorexia nervosa and neurotic vomiting, 478
Voris, H. C.: Therapy of neurogenic bladder, 1066

**Wallace,** W. McL.: Factors affecting changes produced in electroencephalogram by standardized hyperventilation, *606
War: See also Aviation and Aviators; Medicine, Military; Soldiers and Veterans; etc.
clinical notes from trip to Great Britain, *1030
neurology, 348
some problems of wartime neurology, *839
Weil, A.: Further investigations on myelolytic substance present in disseminated sclerosis, 344
Pathologic changes in central nervous system in experimental electric shock, *918
Weinberg, J.: Review of symptomatology of Alzheimer's disease, 862
Treatment of psychotic patients in general hospitals and sanatoriums, 502
Wernicke Syndrome: See Encephalitis, hemorrhagic
Wertham, F.: Brain in sickle cell anemia, *752
Winkelman, N. W.: Cerebral fat embolism; clinicopathologic study of 2 cases, *57
Progressive degenerative encephalopathy; report of case occurring in infancy with antenatal onset in which condition simulated "swayback" of lambs, 345
Wolf, A.: Pathologic features of murine and cavian poliomyelitis, 346

Woltman, H. W.: Amyloid neuritis, *132

Woolsey, R. D.: Suprasellar aneurysm; report of case, with recovery, *662

Wortis, H.: Pyruvic acid studies in Wernicke syndrome, *215

"Sham rage" in man; report of cases, 1071

Wycis, H.: Intracranial pneumocele; report of case, 186

**Yacorzynski,** G. K.: Studies of sensation of vibration; vibration sensibility in face following retrogasserian neurectomy, *813

Yaskin, H. E.: Foster Kennedy syndrome associated with non-neoplastic intracranial conditions; report of case, 873

Prevention of traumatic complications in convulsive shock therapy by magnesium sulfate, 191

**Zeldis,** L. J.: Encephalitis with intranuclear inclusion bodies; clinicopathologic study, *353

Zimmerman, H. M.: Tumors of brain produced with benzpyrene, 346

Zona: See Herpes zoster
